

BRITISH COLUMBIA SECONDARY SCHOOL MATHEMATICS CONTEST, 2009

Senior Preliminary

Wednesday March 4

*Dedicated to the memory of Jim Totten, the inspiration for
and co-founder of the BCSSMC*

1. The expression

$$\frac{2010^2 + 2(2010)(2008) + 2008^2}{2010^2 - 2008^2}$$

equals:

- (A) 4040100 (B) 4032064 (C) 45100 (D) 8407 (E) 2009
2. Quadrilateral $ABCD$ is inscribed in a circle. If $\overline{AB} = \overline{DC} = 8$ and $\overline{AD} = \overline{BC} = 6$, then the perimeter of the quadrilateral $EFGH$ formed by joining the midpoints $E, F, G,$ and H of the sides $AB, BC, CD,$ and DA is:

- (A) 20 (B) 24 (C) 28
(D) 32 (E) 36
3. Jack walks up stairs one step at a time. Jill walks up stairs two steps at a time. Art, who likes to show-off, goes up three steps at a time. If each person starts with his or her left foot on the first step of the stairs, the first step on which all three will put their right foot is:

- (A) 6 (B) 9 (C) 12 (D) 24 (E) Never happens

4. The value of the sum

$$1 + \frac{1}{2} + \frac{1}{6} + \frac{1}{12} + \frac{1}{36} + \frac{1}{72} + \frac{1}{216} + \frac{1}{432} + \dots$$

is:

- (A) $\frac{3}{2}$ (B) $\frac{9}{5}$ (C) 2 (D) $\frac{9}{4}$ (E) 3
5. The shaded circle is tangent to the semicircle at the point A and the diameter of the semicircle at point B , the midpoint of the diameter of the semicircle. The ratio of the area of the shaded circle to the total area of the semicircle is:

- (A) 1 (B) $\frac{2}{3}$ (C) $\frac{1}{2}$
(D) $\frac{1}{3}$ (E) $\frac{1}{4}$
